CONGRATULATIONS TO THE CLASSES
OF SEVENTY-EIGHT AND SEVENTY-NINE!

It is a rare privilege to be a part of this, your first yearbook since I've been on the Florida State campus. My congratulations to all who have taken part in the restoration of this important tradition. I'm very glad the "death of the yearbook," announced in 1970-71, turned out to be "premature."

Yearbooks have a way of becoming more meaningful to our lives as we grow older. They are, in effect, the first pages of history in which most of us gain a printed reference to one of our personal milestones--not to mention a lasting pictorial impression to visit upon our children and grandchildren.

Just for the fun of it, I've included my own "then and now" photographs to prove that your president was young and idealistic once upon a time. Though I've aged physically, and typically grown a tad more conservative since my own college graduation, I'd like each of you to know that ideals never grow old. It is their eternal youth that makes them so attractive to each successive generation. And so long as each of you carries one of the torches that symbolize Florida State University, the wisdom you have gained within our gates will light up your lives, and the lives of those you touch.

My best wishes go out to you, individually and collectively, for your future successes as alumni of one of the nation's finest institutions. It has been my privilege and honor to be your president.

Sincerely,

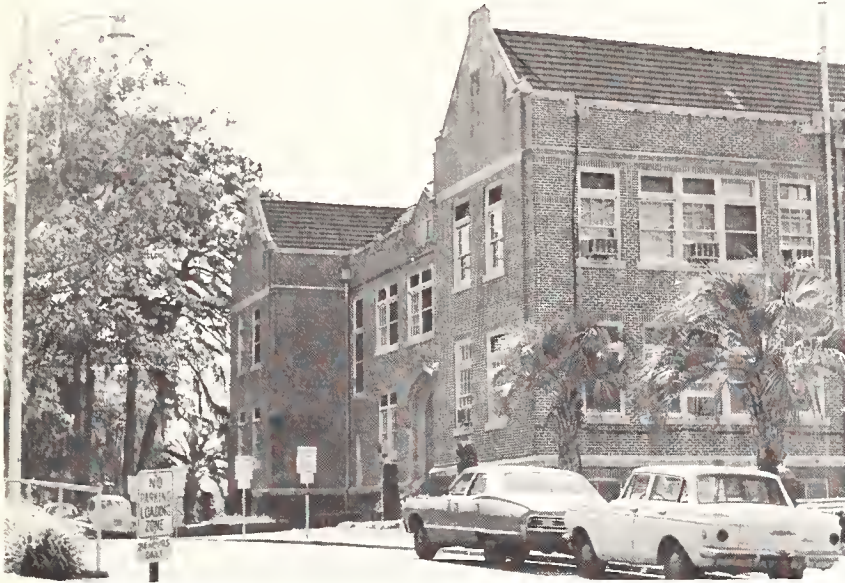

A handwritten signature in cursive script that reads "Bernard F. Sliger".

THIS IS FLORIDA STATE

Florida State University—the home of more than 20,000 Seminoles—has a campus that starts at the top of one of Tallahassee's famed seven hills, and rolls gently downward and westward across some 340-odd acres of pines, palms and pecan trees.

Founded in 1857 as the Seminary West of the Suwannee, its heritage is evidenced in the wide range of architectural struggles to preserve history and keep up with modern times and air conditioning. Yet it still ranks as one of the South's last, few bastions of campus greenery—the kind that combines the blossoms of camellias, azaleas and dogwoods with moss-hung oaks that are, in some cases, as old as the University itself, if not older.

From the Gothic towers of Westcott at the eastern entrance to the campus, to the modern glass and steel structures of its Science Complex to the west, Florida State University has moved forward in time and growth more rapidly than many of its newer counterparts in the State University System. Its enrollment has quadrupled since it became coeducational in 1947, following nearly half a century as the Florida State College for Women.

Today, its 14 schools and colleges are spread through \$150 million worth of building, its annual budget exceeds \$100 million and it attracts more than \$18 million a year in research contracts and grants. Students can pick and choose from more than 100 career options offered in arts and sciences, business, communication, criminology, dance, education, home economics, law, library science, music, nursing, social sciences, social work, theater and visual arts programs.

The University is a member of the Academic Common Market and has overseas study centers in Florence, London and the Panama Canal Zone. Summer programs of study are offered in law at Oxford, in hotel and restaurant administration in Switzerland, and in comparative studies of economic and social systems in Yugoslavia.

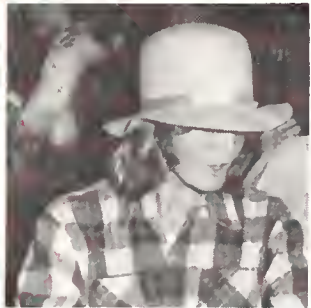

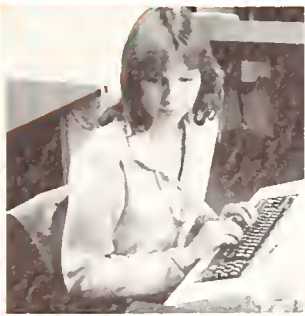

The location of FSU in the Capital City of Florida offers unusual opportunities for study and research in the social and policy sciences, and an optimum environment for internships and on-the-job learning experiences for students in many fields of study.

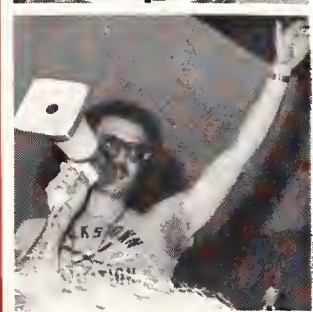

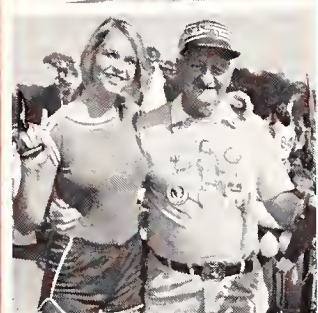

The University operates major laboratory facilities for nuclear, marine and computer research. In addition, it has a wide-ranging spectrum of institutes and research centers, each of which deals with specialized aspects of the following fields of study; government, geophysical fluid dynamics, molecular biophysics, educational research, American theater, gerontology, social research, community mental health, employee relations, economic development, analysis of resources and environment, Southern culture and religion, statistical consultation, educational technology and instructional systems, population studies, multi-campus systems, educational tax policy, urban and regional planning, criminological and correctional research, and the study of women in educational management systems. A Regional Rehabilitation Center serves citizens in the tri-state area with diagnostic and remedial treatment of speech and hearing problems.

A city within a city, Florida State has 1,200 faculty members, more than 6,000 additional employees and a construction program that will exceed \$50 million between now and 1981. The construction of a new civic center and a center for continuing education—both near the State Capitol—are destined for completion by the fall of 1980.

College was supposed to be a great awakening;
It was.
College was supposed to be fun;
It wasn't always.

The World Around Us

1976

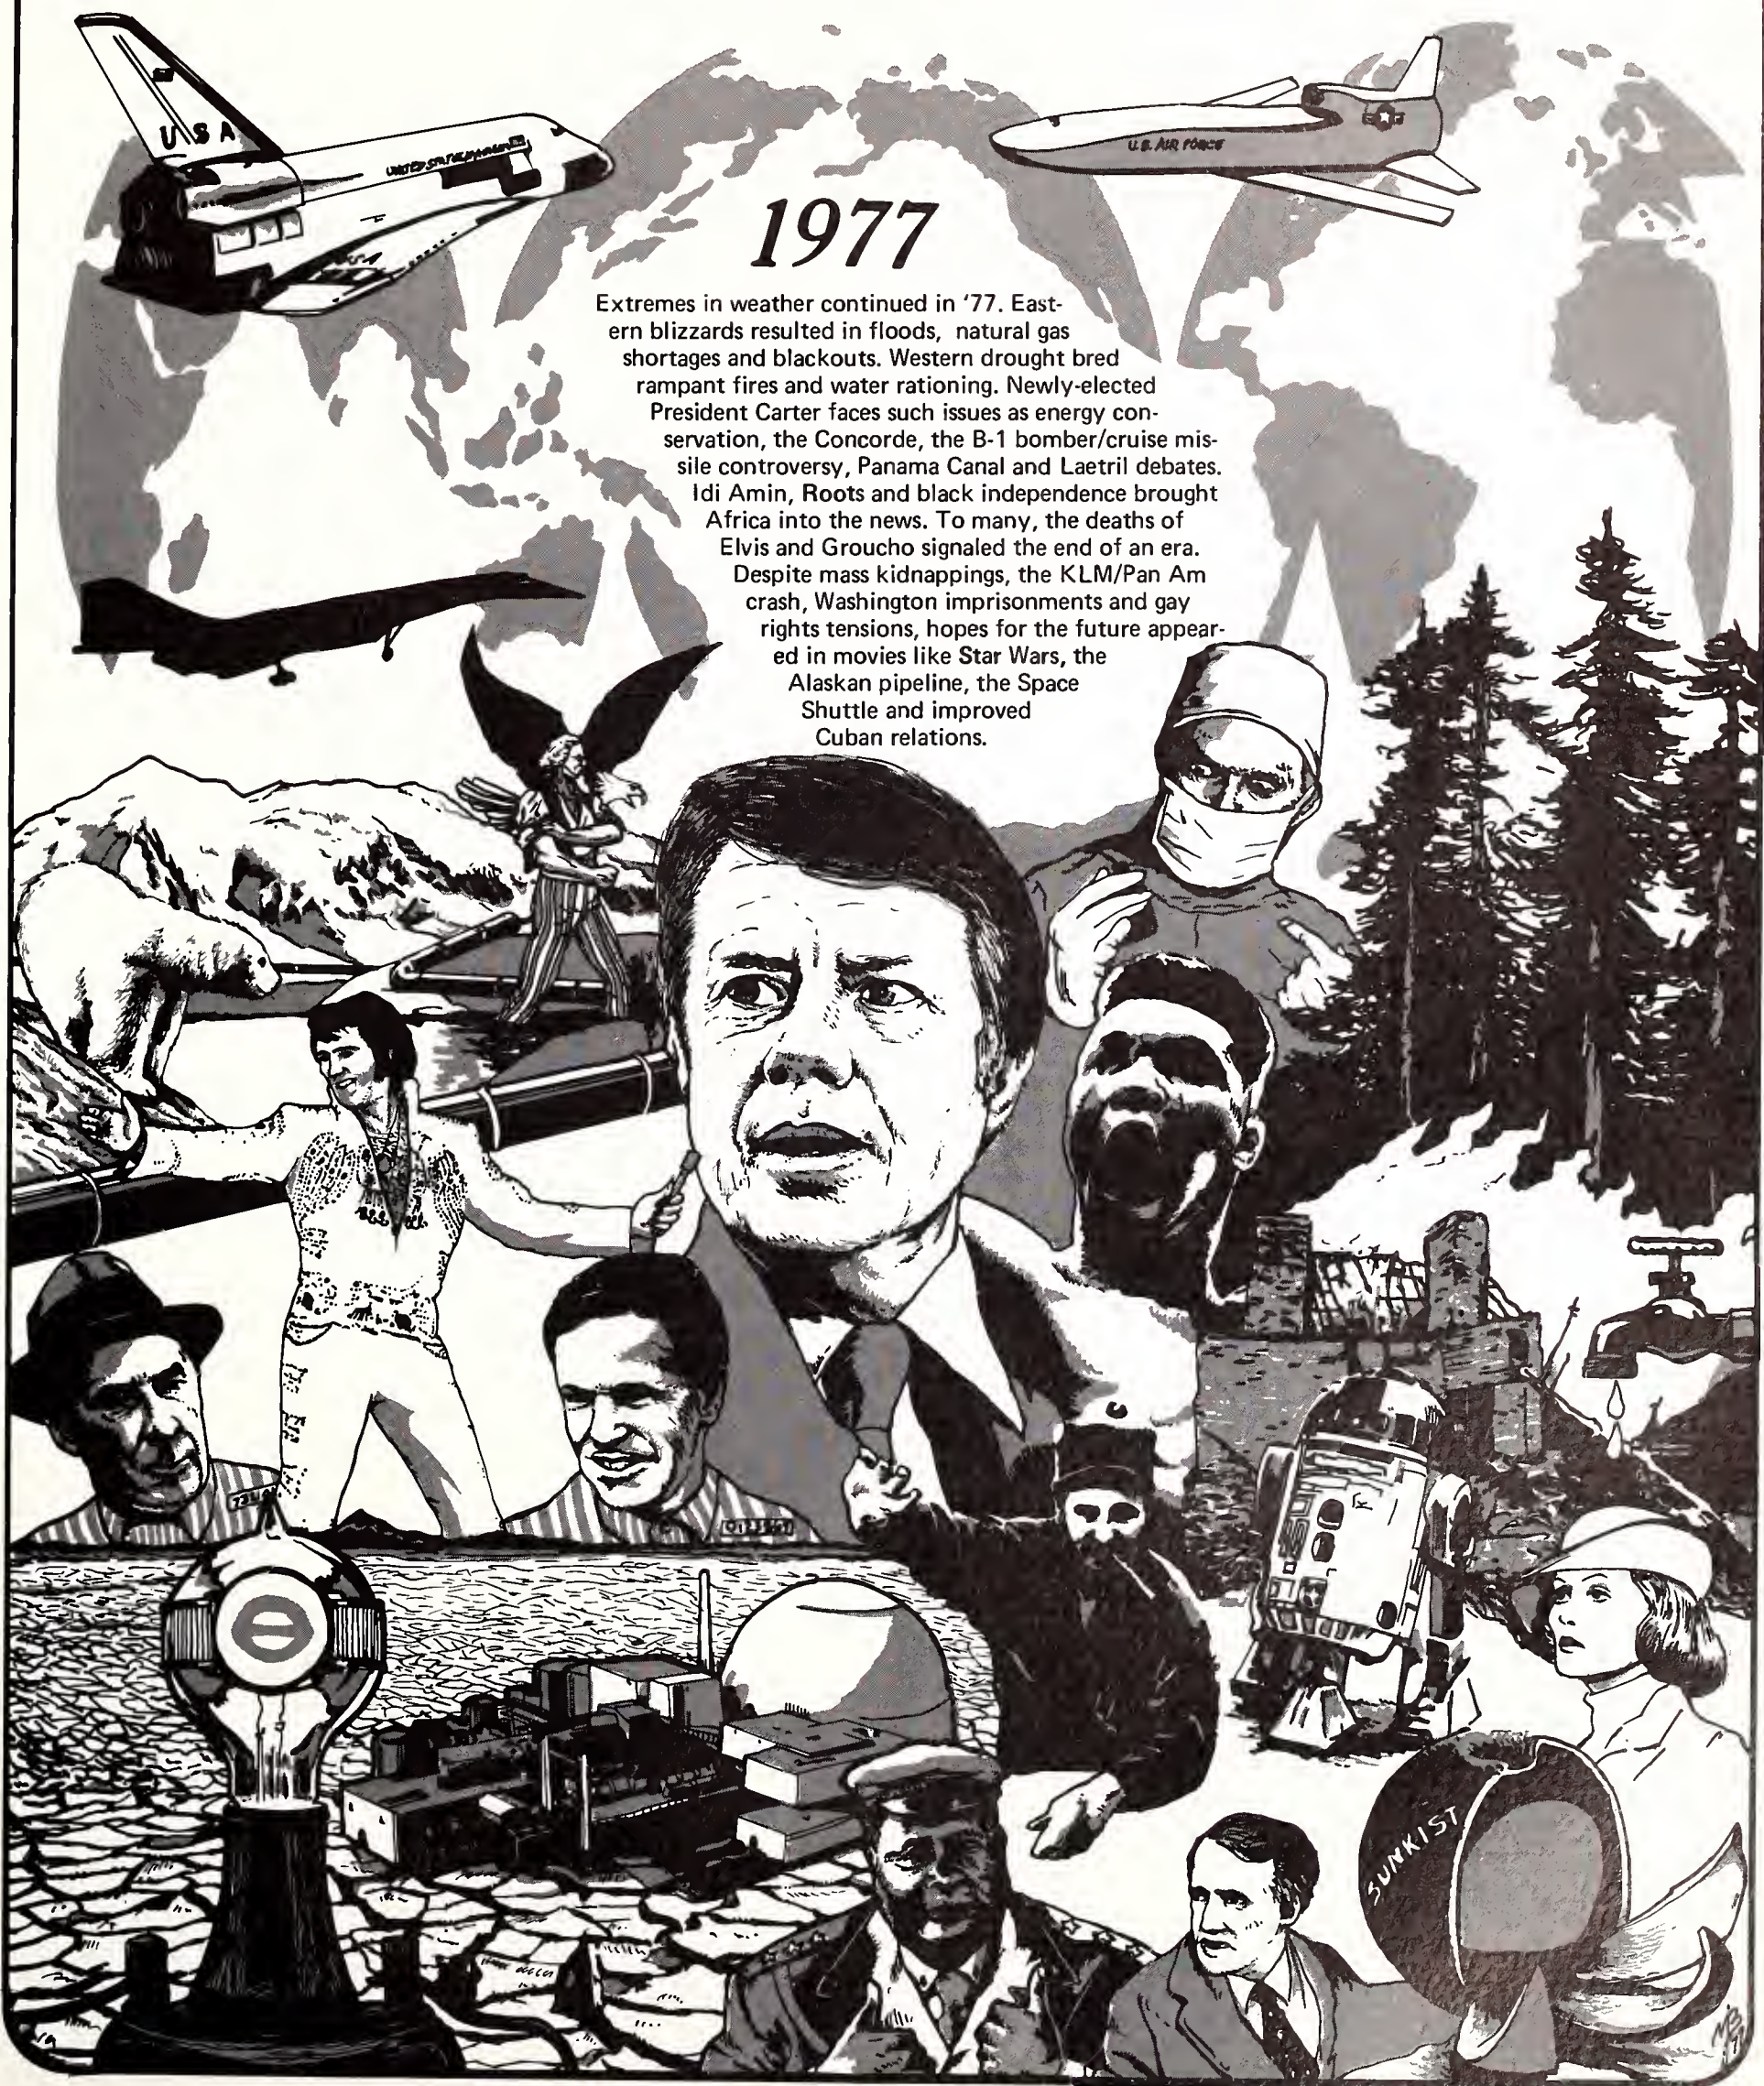

America demonstrated its capacity to adapt in 1976. Old faces reappeared and new faces stepped forward to provide new hopes. The Winter Olympics, Surveyor's Mars photos, the national political conventions and the election of Jimmy Carter dominated the news and TV screens. The U.S. began to celebrate our 200th birthday. Marijuana was decriminalized in California, a new investigation of the Kennedy and King assassinations was begun, and in Congress a new scandal began as a result of Elizabeth Ray's revelations. Meanwhile, old faces made one last appearance as Eldridge Cleaver returned to the U.S. for trial, Mao died in China, and King Kong returned to New York in an oil tanker.

The World Around Us

1977

Extremes in weather continued in '77. Eastern blizzards resulted in floods, natural gas shortages and blackouts. Western drought bred rampant fires and water rationing. Newly-elected President Carter faces such issues as energy conservation, the Concorde, the B-1 bomber/cruise missile controversy, Panama Canal and Laetral debates. Idi Amin, *Roots* and black independence brought Africa into the news. To many, the deaths of Elvis and Groucho signaled the end of an era. Despite mass kidnappings, the KLM/Pan Am crash, Washington imprisonments and gay rights tensions, hopes for the future appeared in movies like *Star Wars*, the Alaskan pipeline, the Space Shuttle and improved Cuban relations.

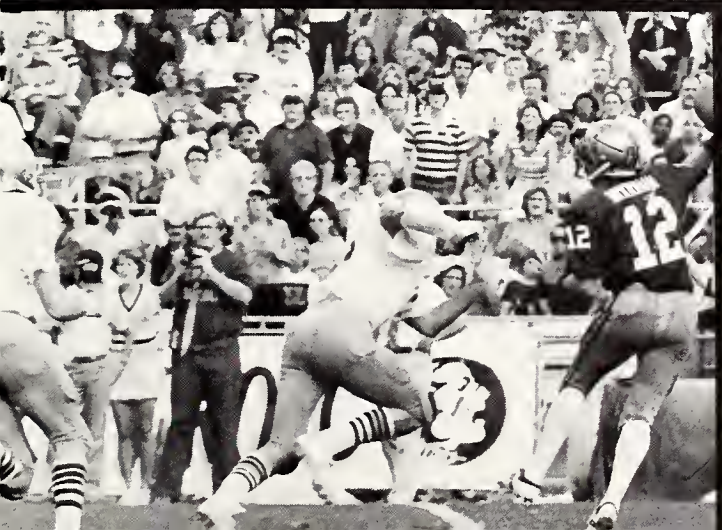

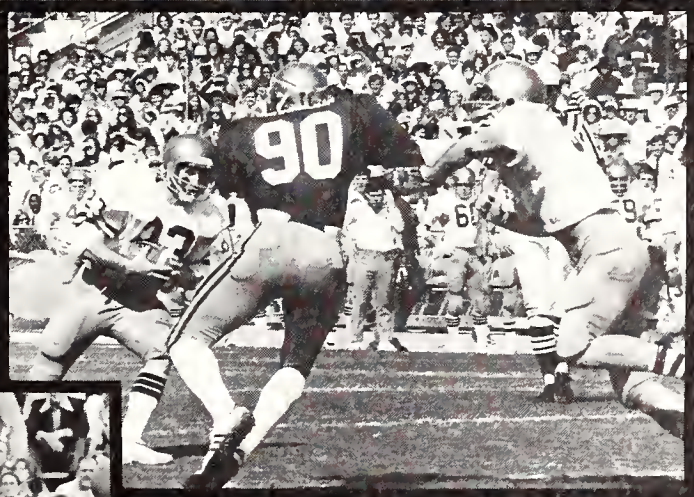

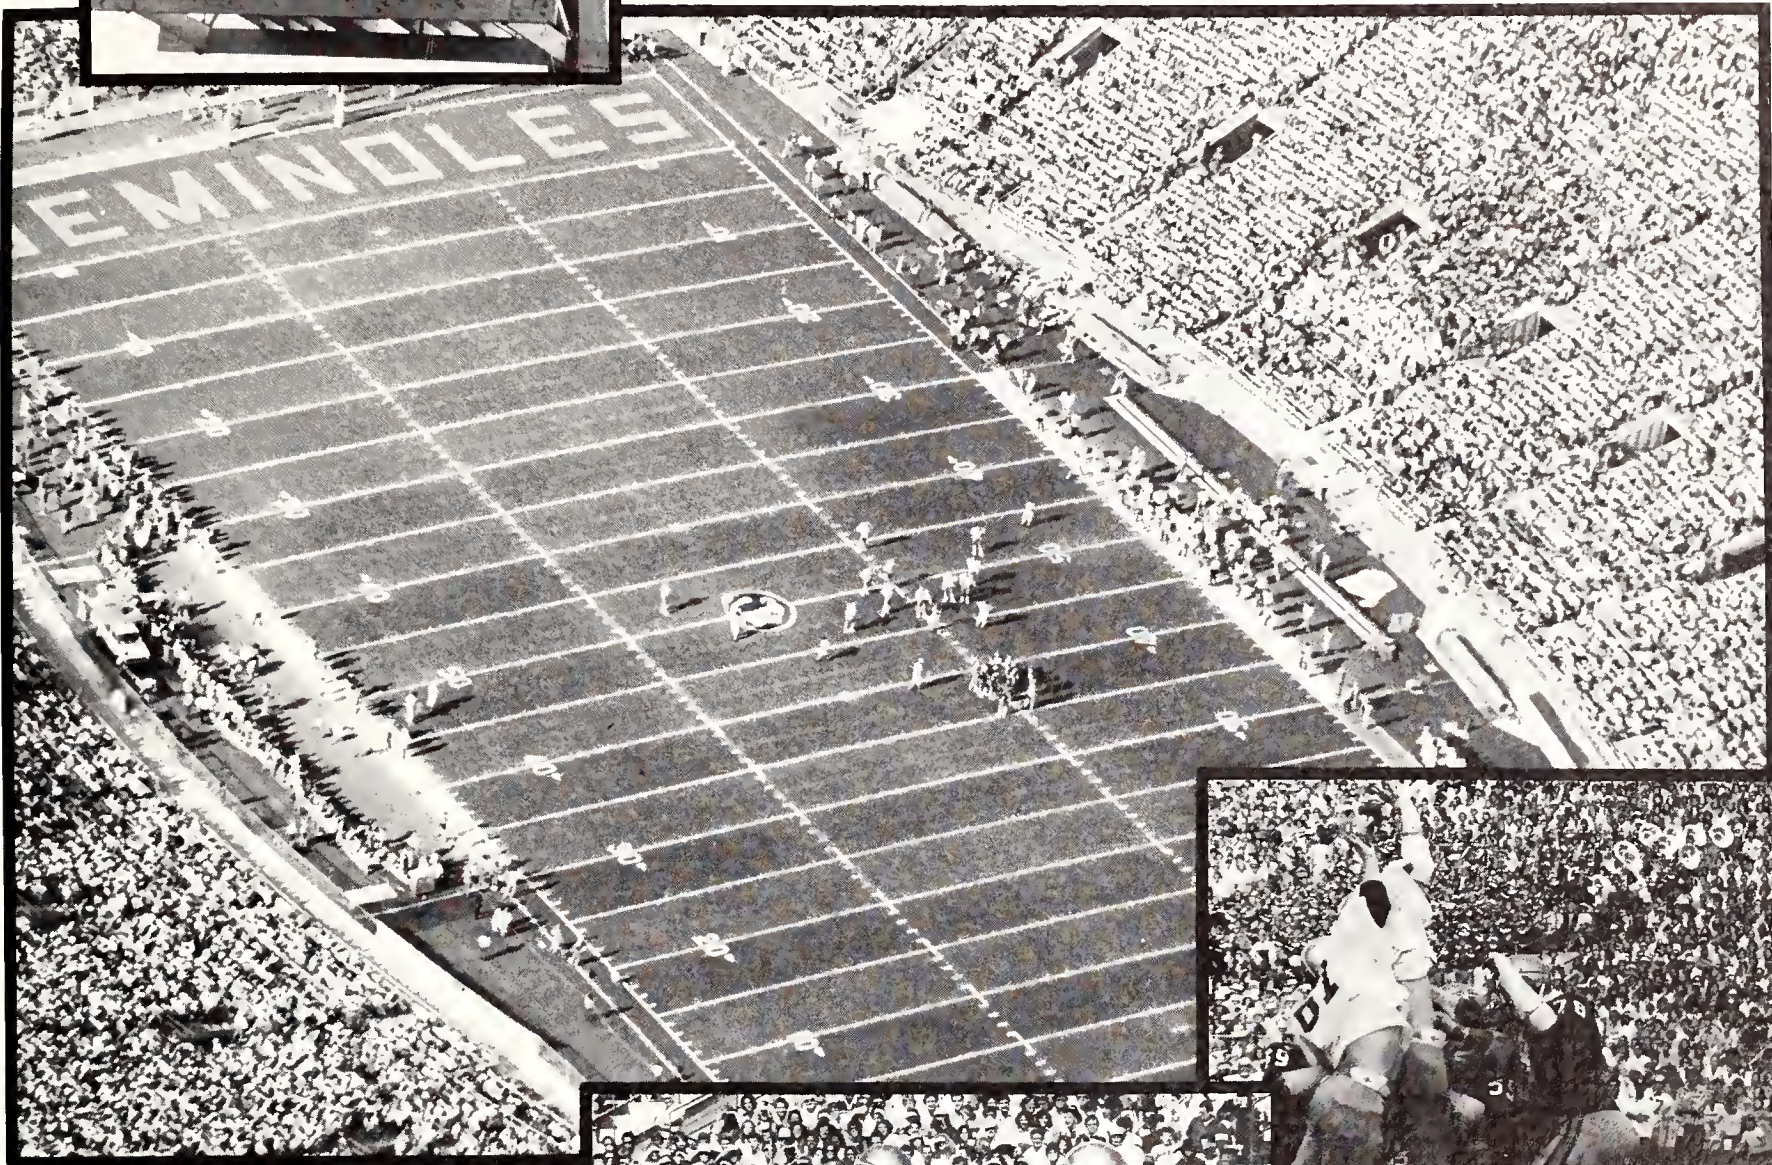

The World Around Us

1978

The drought was over, but the storms that followed were, in many parts of the country, blizzards and floods. President Carter's popularity was on the downswing because of his foreign policy and the releasing of the Panama Canal. The court rules for Bakke, but condones affirmative action. The nation watched as Californians staged the "Great Tax Revolt," better known as Proposition 13. Champions of world peace were weary with the loss of two Popes, the Russian spy trials, the People's Temple mass suicide and murders in Guyana, and continued tension in the Middle East. Issues still pending were the ERA, the Neutron Bomb, the "Self Rule" plan in Rhodesia, paraquat poisonings, Cuban tension and the threat of Cold War. Muhammad Ali was upset and all of America caught "Saturday Night Fever."

ALPHA BETA CHI
TALLAHASSEE

Your college years will shape the rest of your life.
Yearbook photos now being taken!

by Susan Waller

Now is the time for graduating FSU
seniors to have their names and faces
recorded for the revived yearbook. The
1979 FSU Senior Record yearbook, the
first since 1971, is being sponsored by the
honorary service club Alpha Beta Chi. In
addition to photographs gathered through-
out the year, all seniors who wish to
participate may have their pictures taken at
no charge and be included in the book. A
photographer will be at FSU today
through Tuesday to take the photos for free.
An appointment must be made in the
information lounge on the second floor of
the Union. Men are asked to wear jackets

and ties, but some will be provided for
students who don't have them. Women are
asked to wear either a sweater or a dress.
Additional photographs can be ordered at a
reasonable price from the photographer
after viewing the prints.

The only time the 1979 yearbook can
be ordered is at this photo session, but you
don't have to be a senior to buy one. The
cost of the yearbook is \$6.45, but add \$1.25
if the copy is to be mailed.

Gail Perryman is editor of the yearbook.
She asks that anyone interested in
contributing material, photos, energy
or enthusiasm contact her in care of Alpha
Beta Chi through the campus mail at Box
1647.

Pi Beta Phi, a national sorority founded in 1867, was established on the FSU campus in 1921. Three of the past five years the Florida State chapter has received one of the top two awards given by the National Fraternity.

The Pi Phis earned Panhellenic recognition for their outstanding academic record for the past three quarters. They were also the recipients of the Greek Week Overall Trophy in the spring of 78.

For their homecoming float in which they were paired with the Sigma Nus, the duo received Best Theme Award.

Pi Phis are looking forward to an interesting year involved in the campus and community life.

KAPPA KAPPA GAMMA

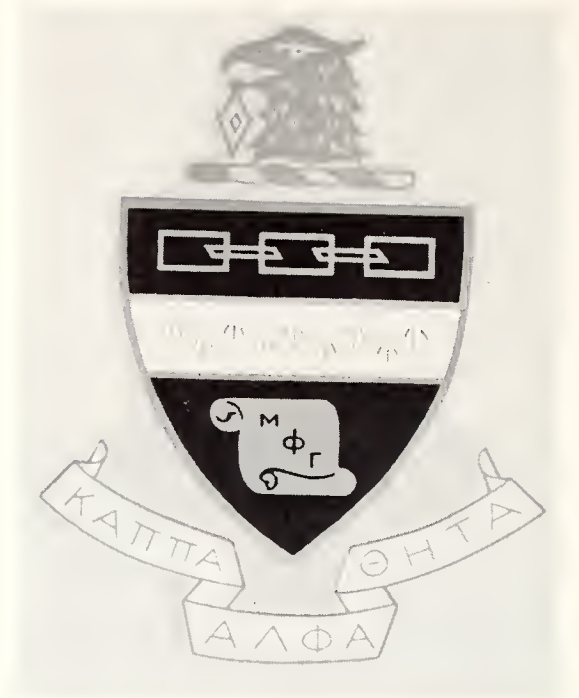

In their 17th year on campus, Epsilon Zeta Chapter of Kappa Kappa Gamma has been busy with intrasorority as well as campus-wide activities. Fall was exciting with Rush, football games, second place in Homecoming float, and first place in sorority intramural football. The fall pledges sponsored a hayride with a barndance for the activities in November. Celebrating KKG founding at Monmouth College, the Kappas held a joint dance with Pi Beta Phi at the Hilton which highlighted the fall social calendar. The Alpha Chi Omegas and

the Kappas joined forces in a money raising 24 hour volleyball marathon which contributed \$800 to Muscular Dystrophy.

Fraternity socials are always popular and the KKG's had their share throughout the year. The annual winter weekend was celebrated in Orlando at the Royal Plaza Hotel with Kappas invading Disney World on Saturday. Plans for spring include a beach weekend at St. George Island. '78-'79 was a fun year for the Epsilon Zeta Kappas and next year should be even better.

PI KAPPA ALPHA Π Κ Α

ΠΚΑ

Pi Kappa Alpha was the second fraternity established on the F.S.U. campus, organized in the early Fall of 1947. Since that time, PiKA has maintained itself as the leader, having the largest membership of the twenty-four campus fraternities for the last nine consecutive years.

Varsity teams, especially football and baseball, count many Pikes among their

members. Student Government and various honoraries are also well supplied with Pikes. PiKA has men in Student Senate, Union Board, and more members of Scalphunters than any other fraternity.

The chapter is especially proud of its alumni who remain very loyal and supportive of the fraternity. Alumni Tom Bush ('68) and Don Chamberlain ('56)

are currently serving in the Florida Legislature, and Hubert Green ('65) remains one of the top pro golf money winners.

A successful intramural program, awesome parties, and the initiation of over fifty-five young men made the 1978-79 school year one of the best ever.
